President's Corner:

It's a good thing that February has 29 days this year... since we've got a lot going on! The High Country West team has really *leaped* into action this month! If you stop by the Club, you'll see some major construction happening around the pool area. Peek through the security fencing and you'll see we're on track to make great improvements by replacing the old pool deck and refurbishing the pool and spa facilities. And if you stop by, be sure to smile, because we have also added new security cameras around the club. In addition, design drawings are almost complete for Area C, and we are evaluating innovative technologies that will help us power our Club facilities *and* save money on our energy bills. If you want to learn more about these and other exciting projects we have planned, please come to the HCW Board Meeting on the second Wednesday of every month to learn more and share your feedback.

Regards,

Julie
