

High Country West Property Owners Association

May 31, 2020

Hello neighbors -

As we begin to navigate the new normal in this post-acute period of the COVID-19 pandemic, High Country West board and managers recognize that we have an important charter. We need to maintain and make available our community resources, and we need to do so in a careful and responsible manner that protects our members and employees.

The Board and management team are continuing to closely monitor all aspects of the current situation and the effects on our community. As the governor and local authorities shift to moving our state into the later phases of reopening and begin lifting stay-at-home orders, we are eager to initiate the reopening process for our club facilities.

Our management team and employees are currently starting the first steps of this process. To learn more about our current reopening schedule, as well as who can enter the club, what areas will be open, and what steps we are taking comply with health guidelines, we invite you to visit the Property Owner Resources section on the High Country West website (www.highcountrywest.com), email us at manager@highcountrywest.com, or call 858-451-0725.

Because of the potential for circumstances to change, we will continue to keep you updated about any schedule changes and we will strive to answer any of your questions or concerns regarding the HCW Club and assist with business items needing attention, whether or not the club is open for daily use.

Let's continue taking care of ourselves, our loved ones, and our neighbors.
